

Reason For Exemption From Conformity Assessment of Broadcasting and Communications Equipment

□ Enforcement Decree of the Radio Waves Act Article 77-7 (Exemption from Conformity Assessment) Paragraph 1 [Table 6-2]

1. Equipment exempt from conformity assessment under Article 58-3 Paragraph 1 Subparagraph 1
 - (a) Equipment of which purpose of use is limited to testing for conformity assessment or quality and performance evaluation of products: 10 units

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- Equipment Name :
- Model Name :
- Quantity :
- Exterior Diagram *(picture or diagram indicating the item)*

2. Description ** Please write as specifically as possible*

- Purpose of testing or inspecting the quality/performance:
- Test or inspection for the quality/performance description:
- Date and place of the test or inspection of the quality/performance:
- Method of handling after the test or inspection of the quality/performance:

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the institutions in charge of post-market surveillance and its use other than reported may be penalized accordingly.

- After receiving exemption, it is mandatory to submit a declaration of compliance. Please refer to the notification on the banner.

(b) Equipment of which purpose is limited to research and technology development: 1,500 units

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- Equipment Name :
- Model Name :
- Quantity :
- Exterior Diagram *(picture or diagram indicating the item)*

2. Description ** Please write as specifically as possible*

- Purpose of the research and technology development:
- Research and technology development description
- Date and place of the research and technology development:
- Method of handling after the research and technology development:

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the institutions in charge of post-market surveillance and its use other than reported may be penalized accordingly..
- After receiving exemption, it is mandatory to submit a declaration of compliance. Please refer to the notification on the banner.

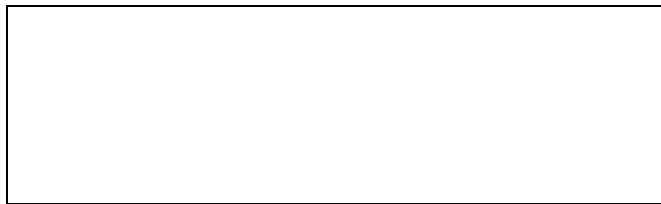

(c) Equipment not for sale and of which the purpose is limited to promotional displays, etc.:

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- Equipment Name :
- Model Name :
- Quantity :
- Exterior Diagram *(picture or diagram indicating the item)*

2. Description ** Please write as specifically as possible*

- Purpose of the display:
- Name of the display:
- Date and place of the display:
- Method of handling after the display:
- *Attach a confirmation document indicating the participation in the display when applying for exemption to UniPass.*

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the institutions in charge of post-market surveillance and its use other than reported may be penalized accordingly..
- After receiving exemption, it is mandatory to submit a declaration of compliance. Please refer to the notification on the banner.

(d) Equipment not for sale and of which the purpose is limited to international conferences, international competitions, and etc.: Quantity specified by the Minister of Science and ICT

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- Equipment Name :
- Model Name :
- Quantity :
- Exterior Diagram *(picture or diagram indicating the item)*

2. Description ** Please write as specifically as possible*

- Purpose of the conference (competition):
- Name of the conference (competition)
- Term and place of the conference (competition):
- Method of handling after the conference (competition):
- *Attach a confirmation document indicating the participation in the conference (competition) when applying for exemption to UniPass.*

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the institutions in charge of post-market surveillance and its use other than reported may be penalized accordingly..
- After receiving exemption, it is mandatory to submit a declaration of compliance. Please refer to the notification on the banner.

(e) Equipment not for sale and of which the purpose is limited to samples for domestic market research: 3 units

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- Equipment Name :
- Model Name :
- Quantity :
- Exterior Diagram *(picture or diagram indicating the item)*

2. Description ** Please write as specifically as possible*

- Purpose of the market research:
- Term of the market research:
- Method and place of the market research:
- Method of handling after the market research:

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the institutions in charge of post-market surveillance and its use other than reported may be penalized accordingly..
- After receiving exemption, it is mandatory to submit a declaration of compliance. Please refer to the notification on the banner.

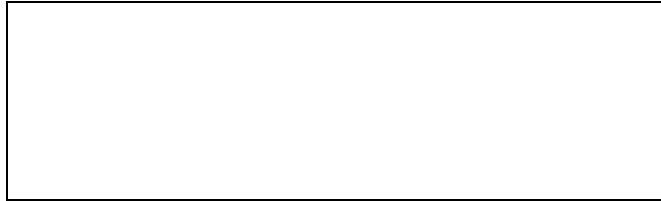

(f) equipment brought in for a certain period to be used by foreign technicians as needed in the domestic industries: Quantity specified by the Minister of Science and ICT

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- a) Equipment Name :
- b) Model Name :
- c) Quantity :
- d) Exterior Diagram *(picture or diagram indicating the item)*

2. Description ** Please write as specifically as possible*

- a) Purpose of importation:
- b) Purpose of the equipment:
- c) Period of time and place of its usage:
- d) Exportation plans after its use:

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the relevant institutions and uses other than reported may be penalized accordingly.
- After the equipment has been confirmed for exemption, it is mandatory to submit a notice of compliance. Please refer to the notification on the banner.

(g) Parts or components, identical to the original, imported for the manufacture or maintenance of certified equipment: Quantity specified by the Minister of Science and ICT

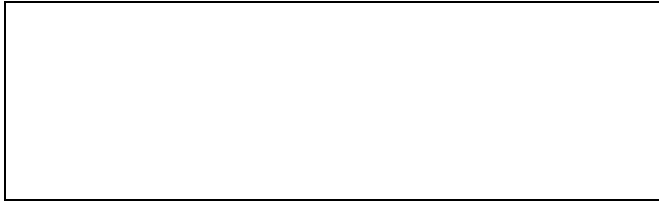

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- a) Equipment Name :
- b) Model Name :
- c) Quantity :

d) Exterior Diagram *(picture or diagram indicating the item)*

2. Description * *Please write as specifically as possible*

- a) Purpose of importation (manufacture):
- b) Maintenance description:
- c) Place of usage (installation):
- d) Attach "Conformity Certification" or "Confirmation of Conformity Registration" for the equipment that has been certified through the conformity assessment.
- e) Document confirming the parts (certified through the conformity assessment) for the equipment (test results)

20 . . .

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the relevant institutions and uses other than reported may be penalized accordingly.
- After the equipment has been confirmed for exemption, it is mandatory to submit a notice of compliance. Please refer to the notification on the banner.

(h) Equipment manufactured or imported for use in the military: Quantity specified by the Minister of Science and ICT

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- a) Equipment Name :
- b) Model Name :
- c) Quantity :
- d) Exterior Diagram *(picture or diagram indicating the item)*

2. Description * *Please write as specifically as possible*

- a) Purpose of importation (manufacture)
- b) Purpose of the equipment:
- c) Place of installation and usage:

✓ *Attach documents such as supply contracts with the military etc.*

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the relevant institutions and uses other than reported may be penalized accordingly.
- After the equipment has been confirmed for exemption, it is mandatory to submit a notice of compliance. Please refer to the notification on the banner.

(i) equipment imported not for sale and only for individual use: 1 unit

➤ *No exemption procedure*

2. equipment exempt from the conformity assessment under the Radio Waves Act Article 58-3 Paragraph 1 Subparagraph 2

(a) Equipment not manufactured for domestic demand, but exclusively for exports: no limit

➤ *No exemption procedure*

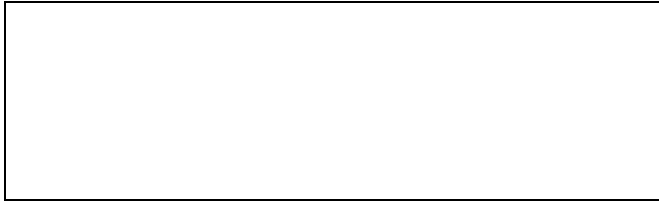

(b) equipment imported for the purpose of re-exportation or delivery: Quantity specified by the Minister of Science and ICT

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- a) Equipment Name :
- b) Model Name :
- c) Quantity :
- d) Exterior Diagram *(picture or diagram indicating the item)*

2. Description ** Please write as specifically as possible*

- a) Purpose of importation:
- b) Term and usage of the equipment:
- c) Method of re-exportation:
 - ✓ Delivery method, in which form it is exported in, such as assembled/processed/installed etc.
- d) Date of re-exportation:

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the relevant institutions and uses other than reported may be penalized accordingly.
- After the equipment has been confirmed for exemption, it is mandatory to submit a notice of compliance. Please refer to the notification on the banner.

(c) Previously exported equipment brought in for a certain period for the purpose of repair or maintenance: Quantity specified by the Minister of Science and ICT

Reason For Exemption

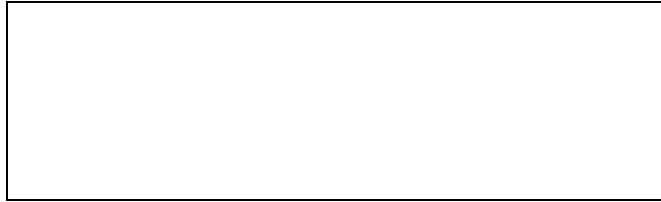

**Person in Charge and Contacts*

1. Equipment Overview

- a) Equipment Name :
- b) Model Name :

c) Quantity :

d) Exterior Diagram *(picture or diagram indicating the item)*

2. Description * *Please write as specifically as possible*

a) Reason for maintenance:

b) Purpose of the equipment:

c) Period of time necessary for the maintenance:

d) Date of re-exportation:

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the relevant institutions and uses other than reported may be penalized accordingly.
- After the equipment has been confirmed for exemption, it is mandatory to submit a notice of compliance. Please refer to the notification on the banner.

(d) equipment manufactured or imported to be used exclusively overseas: Quantity specified by the Minister of Science and ICT

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

(a) Equipment Name :

(b) Model Name :

(c) Quantity :

(d) Exterior Diagram *(picture or diagram indicating the item)*

2. Description * *Please write as specifically as possible*

- a) Purpose of importation:
- b) Purpose of the equipment:
- c) Period of time it is to be imported and further plans (re-exportation date etc.):

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the relevant institutions and uses other than reported may be penalized accordingly.
- After the equipment has been confirmed for exemption, it is mandatory to submit a notice of compliance. Please refer to the notification on the banner.

Public Announcement on Conformity Assessment of Broadcasting and Communications Equipment Article 18

(Radio Waves Act Article 58-3 Paragraph 1 Subparagraph 1 Item(j), Enforcement Decree Article 77-7 Paragraph 1)

1. **Equipment imported for the purpose of installation on ships to be exported, equipment installed on the ships and aircraft introduced, leased and chartered from foreign entities and equipment identical to such to serve as replacement**

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- (e) Equipment Name :
- (f) Model Name :
- (g) Quantity :
- (h) Exterior Diagram *(picture or diagram indicating the item)*

2. Description

** Please write as specifically as possible (Manufacture and delivery of ships for exportation, importation after installation overseas, substitution of parts, etc.)*

- a) Purpose of importation:
- b) Purpose of the equipment (* Always check the compatibility of the models)
 - 1) Previously installed model
 - ✓ State model name, specifications, wired and wireless equipment
 - 2) Model to substitute for the previous model:
 - ✓ State model name, specifications, wired and wireless equipment
- c) Place of installation (target of installation):
- d) Method of handling afterwards (date of exportation etc.):

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the relevant institutions and uses other than reported may be penalized accordingly.
- After the equipment has been confirmed for exemption, it is mandatory to submit a notice of compliance. Please refer to the notification on the banner.

2. Wireless equipment imported not for sale and for the purpose of use for individuals to manufacture or assemble amateur wireless ships

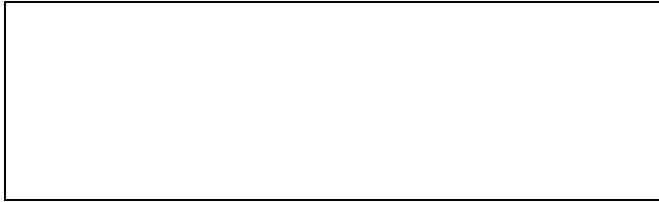

Reason For Exemption

**Person in Charge and Contacts*

1. Equipment Overview

- a) Equipment Name :
- b) Model Name :
- c) Quantity :

d) Exterior Diagram *(picture or diagram indicating the item)*

2. Description * *Please write as specifically as possible*

- a) Purpose of importation:
- b) Purpose of the equipment:
- c) Place of installation and usage:

20

"Company Name, Signature or Seal"

※ Precautions:

- Equipment filed for exemption may be inspected by the relevant institutions and uses other than reported may be penalized accordingly.
- After the equipment has been confirmed for exemption, it is mandatory to submit a notice of compliance. Please refer to the notification on the banner.

3. **Computers assembled from parts which have undergone conformity assessment (attached Table 2 Paragraph 6 Item (c), given that they provide instructions for consumers in compliance with the attached Table 6)**

➤ **No exemption procedure**

(Extract) Public Announcement on Conformity Assessment of Broadcasting and Communications Equipment

[Table 6]

Consumer Notice for Assembled PC

(Regarding Article 18 Subparagraph 3)

1. Consumer Notice

This PC is assembled from parts certified by the conformity assessment, and no conformity assessment has been conducted for the finished product.

2. Notice Guidelines

- a) The consumer notice must be firmly attached to each product, printed or engraved on the surface of the assembled PC and its packaging.
- b) When it is being posted online, the notice must be at the top of the page of the product, or underneath the price tag.
- c) The notice must be larger than 10cm horizontally, and 2.5cm vertically. However, if the product is less than 20cm * 20cm, the notice can be reduced in the same proportion ratio, given that it is visible to the consumers.
